

Write up on Faculty Development Programme

Imparting clinical skills to undergraduate and postgraduate students is a daunting task for the faculty. It has been pointed out that the students are unable to acquire the clinical skills necessary for the Indian Medical Graduate. Under the Competency Based Medical Education, greater emphasis is laid on the acquisition of competencies especially clinical skills. Faculty need to assess these clinical skills delineated under the certifiable skills at the time of Summative Assessment. In order to equip and upscale the faculty in imparting clinical skills and their valid assessment, Medical Education Department, Narayana Medical College has organized a Faculty Development Programme on 7-7-2022 between 10 am to 1 pm at Manthan Hall. Two faculty from the Medical Education Unit, SRM University, Chennai were invited as resource faculty. The programme was successful with positive feedback and much appreciation from participants. A lot of healthy discussions happened during the event.
