

## Post Graduate CME | Dept. of OBGY

Pregnancy is a physiological condition in which various changes occur in pregnant women just to accommodate growing fetus. Pregnancy is a stress test for woman and may unmask certain underlying chronic diseases like, Cardiac disease, DM, hypertension, Kidney diseases which were silent or asymptomatic prior to pregnancy. The CME on Medical disorders of pregnancy was done to post graduate students to impart expertise knowledge on the incidence, type and demographic profile of medical disorders in pregnancy by a team of expert doctors from super specialty departments.

The CME program was conducted in 3 lecture sessions, 1 hour each where the PG students were given expertise knowledge on the topics of Neurological issues in pregnancy; pregnancy and kidney; pregnancy and heart diseases by Neurologist, Nephrologists and Cardiologist respectively. The program was done on 23-07-2022 with faculty from OBGY, speakers from department of Neurology, Nephrology, and Cardiology for PG students of 4 departments (40 Post graduates) and interns'. The program was conducted in Anatomy Demo-1, Ground floor of Narayana medical college. The program was organized by department of OBGY in liaison with Neurology, Nephrology and Cardiology department.
