

# NARAYANA MEDICAL COLLEGE

Narayana Medical College (NMC) Nellore is affiliated with Dr NTR University of Health Science, Vijayawada, Andhra Pradesh. As such, Dr. NTR University of Health Sciences handles the designing and development of curriculum for all its Under Graduate and Post Graduate Courses based on the regulations of the regulatory body viz; National Medical Commission, New Delhi. Annual Academic Calendar, Time tables, and schedule of internal examinations are planned well in advance. The academic Calendar and curriculum are displayed on notice boards and also on the college website for the information of all its stakeholders. Whenever a new syllabus is introduced, Medical Education Department and Curriculum Committee discuss it with the respective heads of the departments. Recommendations and suggestions of individual departments are discussed at the college level and forwarded to affiliating universities to incorporate the same in the prescribed syllabus. The Institute has put in place extensive infrastructure for technology-driven teaching and learning. The college focuses mainly on student-centric learning methods and experiential learning. Mentors continuously interact with mentees to assess their performance and provide assistance to tackle the problems that are encountered during their learning process. The evaluation and assessments of the students aim at measuring course outcomes as against the defined course objectives.
